

Hall

# 2.1

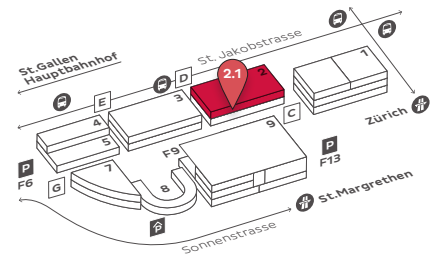

## Conference and convention hall

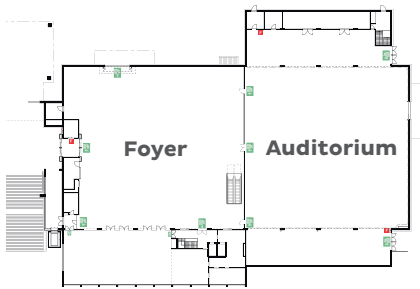

### Description

Hall 2.1 is situated directly on the St. Jakobstrasse and accessible via main entrance D. It is subdivided into foyer and auditorium (can be darkened) with a sound-insulated dividing wall. The wooden roof construction which can be lit by LED lends the hall a special ambience. The plenum has the perfect technical equipment. Permanently installed sound engineering for voice events, screens and projector mounting. The hall also offers direct access for HGVs via two delivery gates.
