

## Conferences and conventions

### Description

Hall 9.2 with window façades (which can be blacked out) and a covered terrace on the southern side is situated in the upper floor of hall 9. Mobile, sound-insulated partition walls enable it to be subdivided into three rooms and a foyer. The space, with capacity for up to 300 people, is ideally suited for smaller conventions and conferences with the accompanying workshop rooms for a larger convention.

### Site plan
