11.2 Entry in the exhibitor directory

Compulsory for exhibitors and co-exhibitors free of charge

The exhibitor directory consists of:

Sector entry (print and online)	1 entry	including
Exhibitor entry (online)	1 entry	including
Offer entry (online)	unlimited	including
Destination entry (online)	unlimited	including

You want more attention:

Logo in the exhibitor directory (online)	CHF	120.00
Logo Combination in the exhibitor directory, exhibitor details and on hall layouts (width 250 pixels, formats: jpg, png, gif).	CHF	350.00

In order to improve the legibility of the directories, the use of block capitals throughout for company names is dropped, for example, Sample Ltd and not SAMPLE LTD is listed. Company names in which each letter is pronounced separately, for example IBM, are an exception.

The management of the fair would like to point out that certain private publishers, who have no business connection with the event or with Olma Messen St.Gallen, sometimes try to publish their own fair catalogues/directories and to charge substantial fees. The management of the fair disassociates itself totally from such activities. The needs of exhibitors and visitors are met completely adequately by the catalogues and directories published by the fair itself.

-------------------------	-------------------------

Vehicles are only permitted to enter the fairgrounds upon payment of a deposit fee of CHF 100.00 or EUR 100.00. Detailed information will be communicated in time.

18.4 Performance plan

The Exhibition Management will draw up a special installation plan for vehicles or special stand constructions. The exhibitors concerned will be informed in good time.

19 Fair training

The language of instruction is German. More information can be found at www.olma-messen.ch/messtraining.

20 Data preparation for production of graphics in stand construction

If you have booked a stand construction (subsection 2), please pay attention to these general requirements for data preparation.

Production files

- printable PDF, EPS or TIFF, ideally > 100 dpi
- arrange data in scale 1:1 or 1:10
- convert all writing in paths and convert line weights into contours
- for open data: Send writing and all links
- do not set logos and texts too close to the edge areas
- send data without trim marks, registration marks and colour control strips
- arrange colours in PMS Pantone Solid Coated

Bleed allowance for textile sails

For the data for sail production, it is necessary to provide the delivered files with a bleed allowance due to the packaging. This is 24 mm on each side of each sail part. Your exhibition management will provide you with the visible dimensions of the individual sails.

W 193.8 x H 246.8 cm (visual size)

B 193.8 + 4.8 cm (2.4 cm each side) = 198.6 cm

H 246.8 + 4.8 cm (2.4 cm each side) = 251.6 cm

Production size incl. bleed = W 198.6 x H 251.6 cm

Clean and prompt data transmission by the deadline

In principle we do not access data that is supplied incorrectly. However, if it is necessary, it will be charged CHF 120.00 per hour for the time taken.

The printable data must be supplied no later than 30 November 2019. In the event of delays in supplying data or if unprintable data is supplied, a production by the deadline can not be guaranteed.

Data transfer

- With a data volume of < 2 GB you can send us the data via grenzenlos@olma-messen.ch
- With a data volume > 2 GB please send it via www.wetransfer.com

St.Galler Kantonalbank

25 Medical services

In case of an emergency it is important to act quickly and effectively. The medical room is located in hall 3.0. Please call +41 79 571 50 44 for medical service or 144 for the ambulance. Please inform your stand personnel accordingly. For more information, visit www.grenzenlos-sg/en/information

26 Surveillance of the area

Beginning of surveillance	Friday, 22 January 2021	10.00 a.m.
Ending of surveillance	Sunday, 24 January 2021	06.00 p.m.

Securitas AG is charged with the independent realisation of the general surveillance.

27 Sustainability

27.1 Disposal

Our aim is to separate recyclables. Please inform your stand personnel as well as your stand constructor about the disposal concept in advance. Further information can be found at www.grenzenlos-sg.ch/en/information.

27.2 Notes on energy efficiency

Please consider the environment when planning the construction of your own stand. If conventional halogen stand lighting is used, only 10 % of the energy is converted to light and 90 % is lost to heat. You should therefore use LED lighting technology if at all possible. You will reduce your costs thanks to the lower power consumption and be able to order a smaller junction box as a result. In doing so, you will also prevent heat build-up at the stand as well as benefiting from a longer service life and better light distribution.

28 Regulations and rules for stand constructions and obligations during hours of opening

28.1 Stand construction rules

The conditions concerning stand construction and stand design can be found under section 4 of the Rules for Exhibitors at www.grenzenlos-sg.ch/en/information

28.2 Covered stands

Fully or partially covered stands must be registered together with the stand sketch (which will be handed out once the definite stand location has been allocated in November 2020) and approved by trade fair management in accordance with fire-safety regulations. It is incumbent upon the exhibitor to meet all fire-safety regulations. If the ceiling structures do not meet the legal requirements, the authorities can order the contested components to be refurbished or removed at the exhibitor's expense. The fire-safety requirements for covered stands are available under subsection 4.2.2.5 of the Rules for Exhibitors at www.grenzenlos-sg.ch/en/information.

28.3 Fire-safety regulations

Information can be found in attachment 1 of the Rules for Exhibitors which can be downloaded at www.grenzenlos-sg.ch/en/information.

28.4 Charging for attractions

Any charging of separate entry, use, consultancy, or other fees by the exhibitor is prohibited, subject to a specific special permit in writing from the trade fair management.

28.5 Stand boundaries and Emergency exits

Stand boundaries shall be strictly observed. Emergency exits and escape routes must be clear at all times.

28.6 Smoking ban

Smoking (also the smoking of e-cigarettes) is generally prohibited in accessible and closed rooms. This applies to all fair halls and restaurants.

28.7 Price declaration regulations

The Swiss price declaration regulations are binding for providers of goods and services. More information at www.seco-admin.ch (Home > Werbe- und Geschäftsmethoden > Preisbekanntgabe).

29 Information for foreign exhibitors

29.1 Customs treatment

The leaflet customs treatment can be found at www.grenzenlos-sg.ch/en/information.

29.2 Reclaim of VAT

The leaflet reclaim of VAT can be found at www.grenzenlos-sg.ch/en/information.

29.3 Work permit

Exhibitors who employ foreign stand personnel are responsible themselves for obtaining the respective work permit. Please contact the migration office for further information:
*Migrationsamt Kanton St.Gallen, Oberer Graben 38, 9001 St.Gallen,
phone +41 58 229 31 11, fax +41 58 229 46 08*

30 Payment deadlines

1. Partial Invoice	90% from the actual amount due for payment within 30 days
Final Invoice	after the fair: due for payment within 30 days

You will receive the invoices optionally either electronically by e-mail or by post (chosen option applies to all invoices).

31 Contractual basis and GTC

Basis for the contract between Olma Messen St.Gallen and the exhibitor are the Exhibitor Contract, the Rules for Exhibitors and the Exhibitor-Manual. This documentation and further information can be downloaded at www.grenzenlos-sg.ch/en/information or ordered at the trade fair management
